

ANIKET KUMAR

Full Stack Developer | AI/ML Engineer

+91 6203063384 | aniketkumarsonu62@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (CGPA: 8.23/10) with hands-on experience in full-stack development and machine learning. Proficient in ReactJS, Django, Python, REST APIs, and TensorFlow. Built and deployed multiple end-to-end projects integrating AI/ML models with scalable web backends. Machine Learning Intern with real-world experience in supervised/unsupervised learning, model optimization, and data-driven decision-making. Seeking a developer or AI/ML engineering role to deliver impactful solutions.

SKILLS

Languages: Python, JavaScript, HTML, CSS
Frameworks: ReactJS, Django, Flask, FastAPI, Tailwind CSS, TensorFlow, Keras, Scikit-learn, Pandas, NumPy
Databases: MongoDB, MySQL, SQLite
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Google Collab, Figma, Postman, REST APIs
Soft Skills: Communication, Problem Solving, Creativity, Team Collaboration

PROJECTS

Multi-Domain Recommendation System | [Code](#)

Technologies: Python, Flask, Scikit-learn, TensorFlow, ResNet50, Spotify API, TMDB API, Pandas, NumPy, HTML/CSS, JavaScript

- Developed a full-stack recommendation system delivering personalized suggestions for books, movies, music, and fashion items.
- Implemented collaborative filtering and ResNet50-based image similarity achieving 90%+ recommendation accuracy for fashion items.
- Integrated TMDB and Spotify APIs to enrich content with real-time posters, ratings, and content-based music similarity.
- Designed automated Google Drive model-download pipeline to manage large datasets and serialized pickle models during deployment.

Doctor Appointment System with AI Chatbot | [Code](#)

Technologies: ReactJS, Tailwind CSS, Django, REST API, Postgres, LangChain, TypeScript

- Built a full-stack doctor appointment booking web app enabling patients to view real-time availability and schedule visits.
- Developed an AI-powered healthcare chatbot using LangChain to handle queries, appointment bookings, and medical information.
- Designed 10+ RESTful APIs using Django REST Framework to manage authentication, scheduling, and doctor-patient records.
- Implemented a responsive UI with ReactJS and Tailwind CSS, reducing doctor-patient interaction friction significantly.

Personal Portfolio Website | [Code](#)

Technologies: HTML5, CSS3, JavaScript, GitHub Pages, Git, GitHub, VS Code

- Developed a fully responsive personal portfolio website to showcase projects, technical skills, achievements, and professional experience.
- Implemented modern UI/UX features including dark/light mode, smooth scrolling, animations, and mobile-friendly responsive design.
- Integrated project showcase, resume download, and contact sections to create a centralized platform for recruiters and collaborators.

EXPERIENCE

Machine Learning Intern | [Certificate](#)

Jul 2025 – Sep 2025

Jyesta Corporate Entity

Remote

- Completed structured ML internship with hands-on work on supervised and unsupervised learning algorithms.
- Implemented and optimized classification, regression, and clustering models using Scikit-learn, Pandas, and NumPy on real-world datasets.
- Applied data cleaning, feature engineering, model evaluation, and performance visualization to support data-driven decision-making.

EDUCATION

B.Tech in Computer Science Engineering

2022 – 2026

BRCM College of Engineering & Technology, Bahal, Haryana

CGPA: 8.23/10

Intermediate in Science (Class XII)

2021 – 2022

Pitts Modern School, Gomia, Jharkhand

80%

CERTIFICATIONS

- Programming in Python – Coursera: Core Python programming, data structures, and procedural problem-solving. | [Certificate](#)
- Data Science Bootcamp – GeeksforGeeks: Python, Data Analysis, ML with Pandas, NumPy, Scikit-learn, and Data Visualization. | [Certificate](#)
- Predictive Modeling – DevTown: Predictive analytics, data forecasting, and Machine Learning fundamentals. | [Certificate](#)

ACHIEVEMENTS

- Selected and participated in Adobe India Hackathon (Round 1) involving online MCQ assessment and coding challenge. | [Certificate](#)
- Completed 5-Day Python & Machine Learning Bootcamp (Corizo) — Python, data analysis, model building, and ML workflows. | [Certificate](#)
- Appeared in United Schools Organisation of India (USOI) Examination, securing 65%. | [Certificate](#)
- Awarded for Academic Excellence in 10th Grade — scored 100/100 in Mathematics.
