EDUCATION

BRCM Collage of Engineering & Technology, Bahal, Haryana **(2022 – 2026)**
Bachelor of Technology in Computer Science Engineering – CGPA: 8.23*/10

Pitts Modern School, Gomia, Jharkhand **(2021 – 2022)**
Intermediate in Science – Percentage (%): 80/100

SKILLS SUMMARY

- **Languages:** Python, JavaScript, HTML, CSS
- **Frameworks:** ReactJS, Tailwind CSS, Django,Tensorflow, ScikitLearn, Flask, FastApi(Basic), Pandas, NumPy, Keras
- **Databases:** MongoDB, MySQL
- **Platforms:** Jupyter Notebook, Visual Studio Code, Google Collab, Git/GitHub, Figma , Chrome DevTools,
- **Soft Skills:** Communication, Problem solving, Creativity, Team Collaboration

EXPERIENCE

Machine Learning Intern
Jyesta Corporate Entity || LINK **(Jul 2025 – Sep 2025)**

- **Completed a structured Machine Learning internship**, gaining hands-on experience with **supervised and unsupervised algorithms**.
- **Implemented and optimized classification, regression, and clustering models** using **Scikit-learn, Pandas, and NumPy** on **real-world datasets**.
- **Applied data cleaning, feature engineering, model evaluation, and performance visualization** to support **data-driven decision-making**.

PROJECTS

Project: Multi-Domain Recommendation System || Code
Technologies: Python, Flask, Scikit-learn, TensorFlow, ResNet50, Spotify API, TMDB API, Pandas, NumPy, HTML/CSS, JavaScript

- Developed a **full-stack multi-domain recommendation system** delivering personalized suggestions for **books, movies, music, and fashion items**. Implemented **machine learning and deep learning models**, including **collaborative filtering** and **ResNet50-based image similarity** for fashion recommendations.
- Integrated **external APIs (TMDB, Spotify)** to enrich content with **posters, ratings, and content-based music similarity**.
- Designed an **automated Google Drive model-download pipeline** to efficiently manage **large datasets and serialized (pickle) models during deployment**.

Project: Doctor Appointment System with Chatbot || Code
Technologies: ReactJs, Tailwind CSS, Django, FastAPI, SQLite, LangChain

- Developed a **doctor appointment booking web application** enabling patients to view real-time availability and schedule visits seamlessly.
- Built an **AI-powered healthcare chatbot using LangChain** to handle user queries, appointment bookings, and medical information assistance.
- Implemented a **responsive and user-friendly frontend** using **ReactJS and Tailwind CSS** for efficient doctor–patient interaction.
- Designed and integrated **RESTful APIs using Django** to manage **authentication, appointment scheduling, and doctor–patient records**.

Project: Intelligent Custom Clearance Assistance || Code
Technologies: React.js, Firebase Auth, React Router, Axios, AI Chatbot, REST APIs, HTML, CSS, JavaScript

- Built an **AI-powered customs clearance SPA** featuring document upload, real-time chatbot assistance, and an analytics dashboard.
- Implemented **Firebase Authentication** with **protected routes using React Router** for secure user access.
- Developed **drag-and-drop file uploads** and modular, scalable UI components using **React.js**.
- Integrated **REST APIs using Axios** to enable efficient data processing and smooth frontend–backend communication.

CERTIFICATES

Programming in Python – Coursera || CERTIFICATE

- **Mastered core Python programming concepts** including **variables, control flow, loops, functions, and data structures**, applying **procedural programming and logical problem-solving** to real-world scenarios.

Data Science Bootcamp – GeeksforGeeks || CERTIFICATE

- Completed training in **Python, Data Analysis, and Machine Learning**, with working knowledge of **Pandas, NumPy, Scikit-learn**, and **Data Visualization**.

Predictive Modeling – DevTown || CERTIFICATE

- **Gained exposure** to **Predictive Analytics** and **Data Forecasting,** with a **solid foundation** in **Machine Learning fundamentals.**

ACHIEVEMENTS

- **Awarded for Academic Excellence** in **10th Grade** for scoring **100/100 in Mathematics**.
- **Appeared in the United Schools Organisation of India (USOI) Examination**, securing **65%**, demonstrating **Academic Commitment** and **Consistency**. || **USOI**
- **Selected** and **Participated** in **Adobe India Hackathon** (Round 1), **involving Online MCQ Assessment** and **Coding Challenge, organized** by **Adobe India.** || **Adobe**
- Successfully completed a **5-Day Python & Machine Learning Bootcamp, gaining** hands-on **experience** in **Python Programming, Data Analysis, Machine Learning Fundamentals, Model Building**, and **Practical ML Workflows.** || **Corizo**
